

In the Specification

Page 8, lines 13 and 16; change "port body 3" to "port body 10".

Page 9, lines 11 and 13; insert "28" after "sensor".

Page 9, line 16; insert "29" after "sensor".

Page 10, line 13; insert as a paragraph "Another option for using the arrangement is shown in Figure 2, in which the invention may use a microdialysis probe 30, inserted through a tube 31, to extract substances from body fluids. This probe can be used alone, or in conjunction with a feed tube and catheter." at the beginning of the line.

In the Claims

Please amend claims 1, 10, and 16 as follows:

1. (Amended) A method for analysing body fluids, [in which a fluid is accessed for analysis via an access means implanted in the body] comprising the steps of:

providing a fluid for analysis;

providing an access means containing a self sealing diaphragm for accessing the fluid;

accessing the fluid through the self sealing diaphragm; and

analyzing the fluid.

Sub
C1
10. (Amended) A device for detecting the concentration and/or existence of substances in body fluids, said device comprising an access means with a self sealing diaphragm for accessing the interior of the
